Skopje is the capital city of the Republic of Macedonia and most important administrative, economic, cultural and educational center of the country. The state and local government are growing the capital as a desired brand image for the country that appeals to international audience. The vision of the city is being implemented through the following strategic objectives: Creating a favorable business environment; Development of knowledge-based economy, innovation and quality; Regionalization and internationalization of business; Promoting entrepreneurship; Protecting the environment and human health; Sustainable management of natural resources. Being certified as one of the business-friendly municipalities in SEE with highly developed e-government services, and ranked as number 1 on Financial Times fDi list of top investment destinations in Europe regarding cost effectiveness, Skopje can guarantee efficient administration and favorable conditions for investment and business development. With more than 1.400 km of roads, and two European Corridors (8 and 10) – Skopje region has excellent traffic connections to the whole market of South East Europe.
