Municipality of Štip is located at the Pan-European Corridor X (E-75 highway), less than 100 km from the EU border (Bulgaria). According to Financial Times fDi report for 2016/17, Štip is the most cost effective micro city in Europe. Also, Štip is certified as one of the business-friendly municipalities in South East Europe, offering good traffic connections (highway, cargo airport), low overhead costs, educated and competitive workforce (local University "Goce Delchev" has 12 faculties), free industrial zone and investment incentives. Rich in natural resources, Štip has geothermal ("Kezhovica") and tourism potential (mountain Plachkovica). Ecological environment and favorable climate conditions with 280 sunny days makes Štip ideal for organic food production. The leading economic sectors are: textile and food processing industry, transport services, wholesale and retail, wood and metal-processing. Major foreign investors are Johnson control (USA), Yagya Mezler (Turkey) and Aktiva Automotive (Belgium).
